This checklist contains 162 bird species. Please take a minute to report your sightings of birds, including those that are not on this list, by completing the form on the back of the brochure and mailing it to our office in Bolton Landing. Your support and information will help us to update our natural heritage databases and plan for the protection of important conservation areas. Thank you.

Since 1988, the Lake George Land Conservancy has been working to preserve the world-renowned water quality of Lake George and the rare plants and animals within the lake's 150,000-acre watershed by permanently protecting natural lands.

Legend

B - recorded breeding
